ASSEMBLAGE INSTRUCTIONS

01

Assemble the Hips and Legs

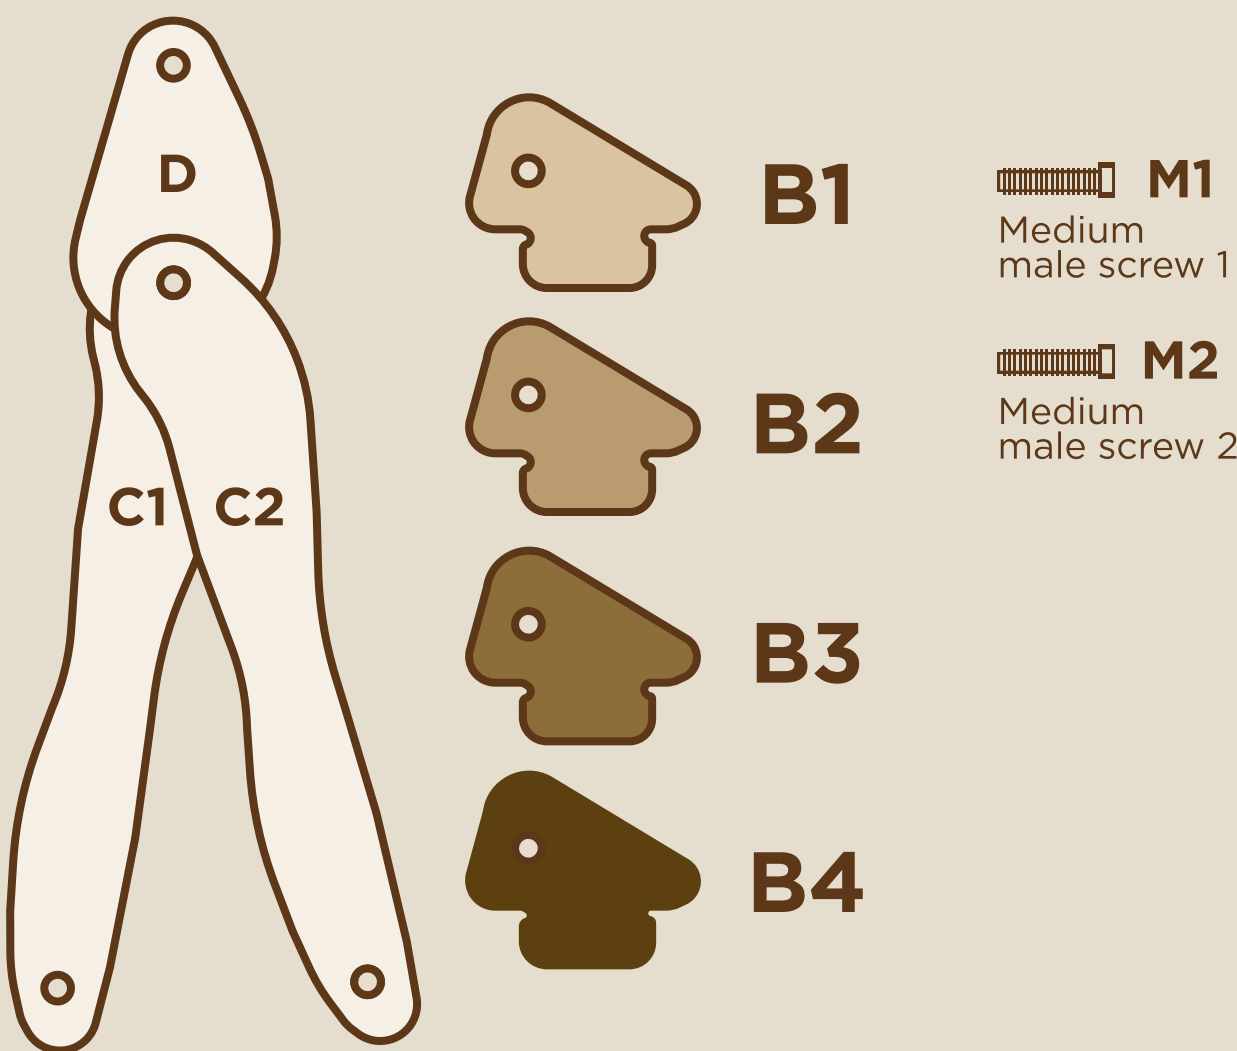

1. Start by placing part D (Hip) in between C1 and C2 (Legs).
2. Make sure the top parts of legs C1 and C2 align properly with the notches on D (Hip).
3. Using a medium male screw, secure C1, C2 and D together.

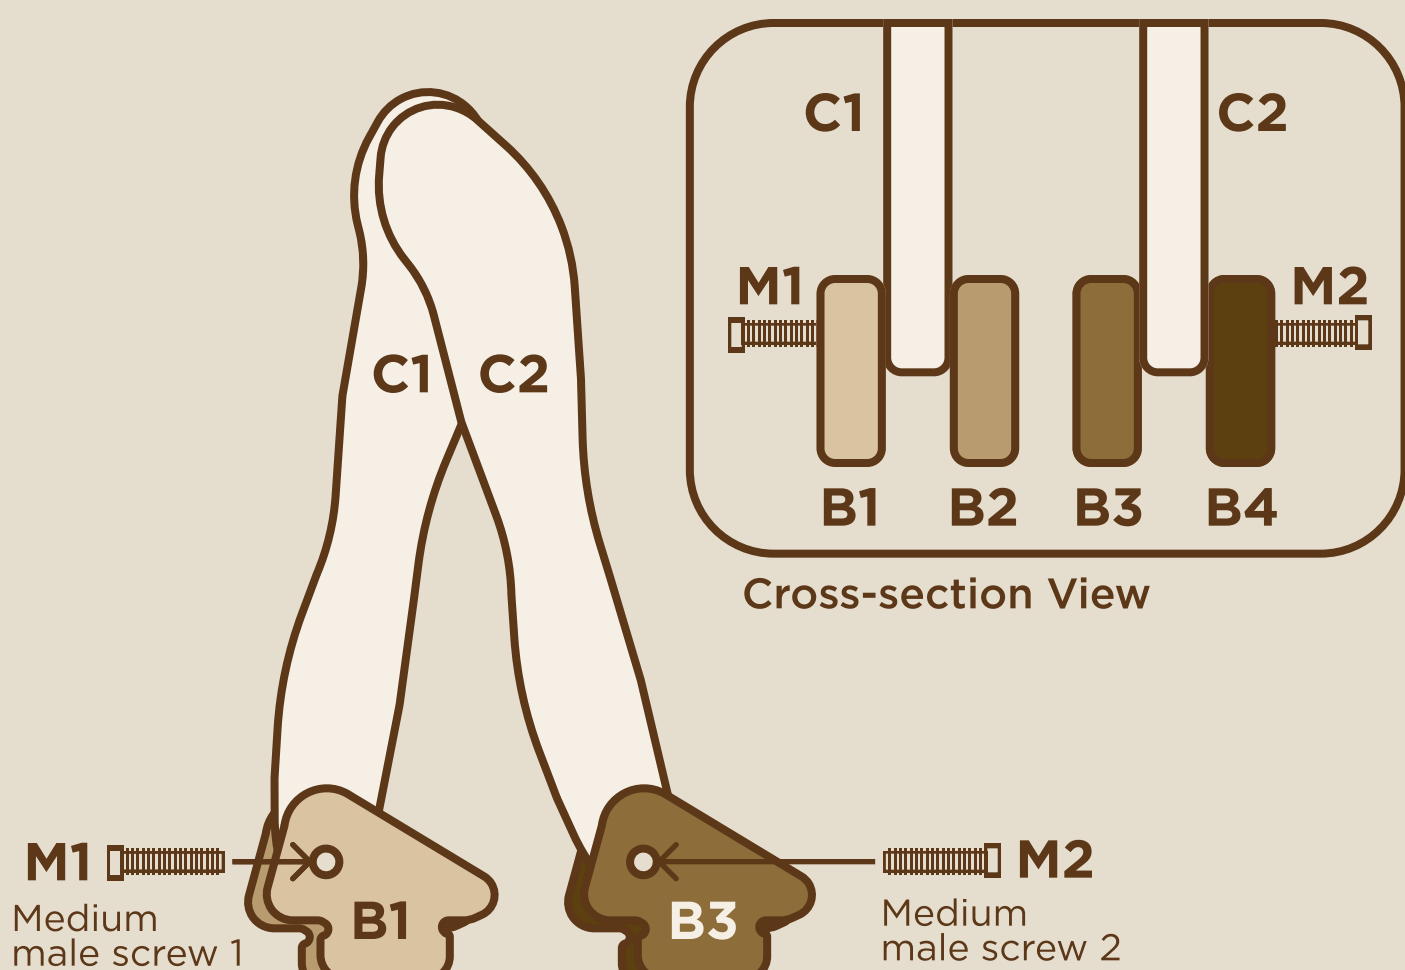

02

Attach the Feet to the Legs

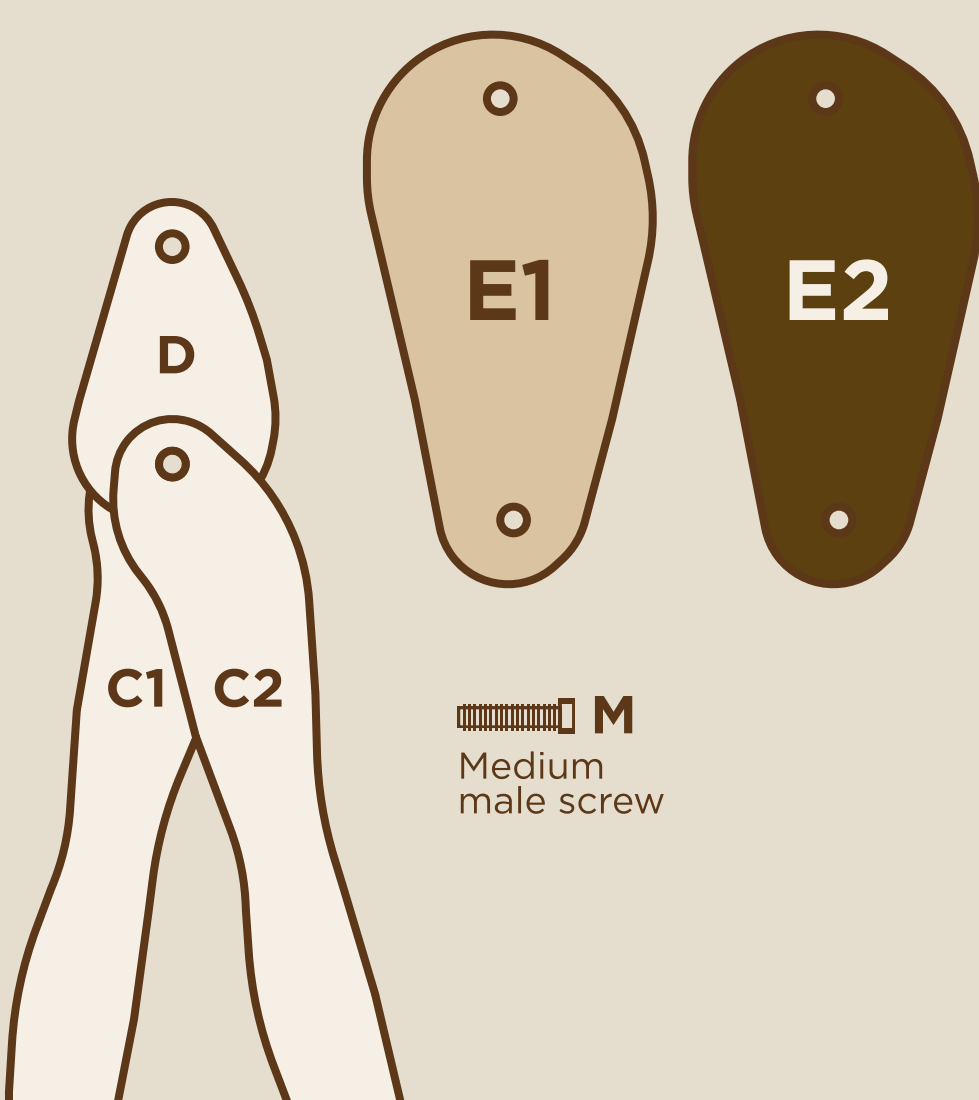

1. Attach feet B1 and B2 to the bottom of leg C1, ensuring each leg is sandwiched between two feet parts.
2. Repeat with the other leg C2 with the feet B3 and B4.
3. Using a medium male screw, secure C1, B1 and B2 together. Repeat on the other feet with C2, B3 and B4.

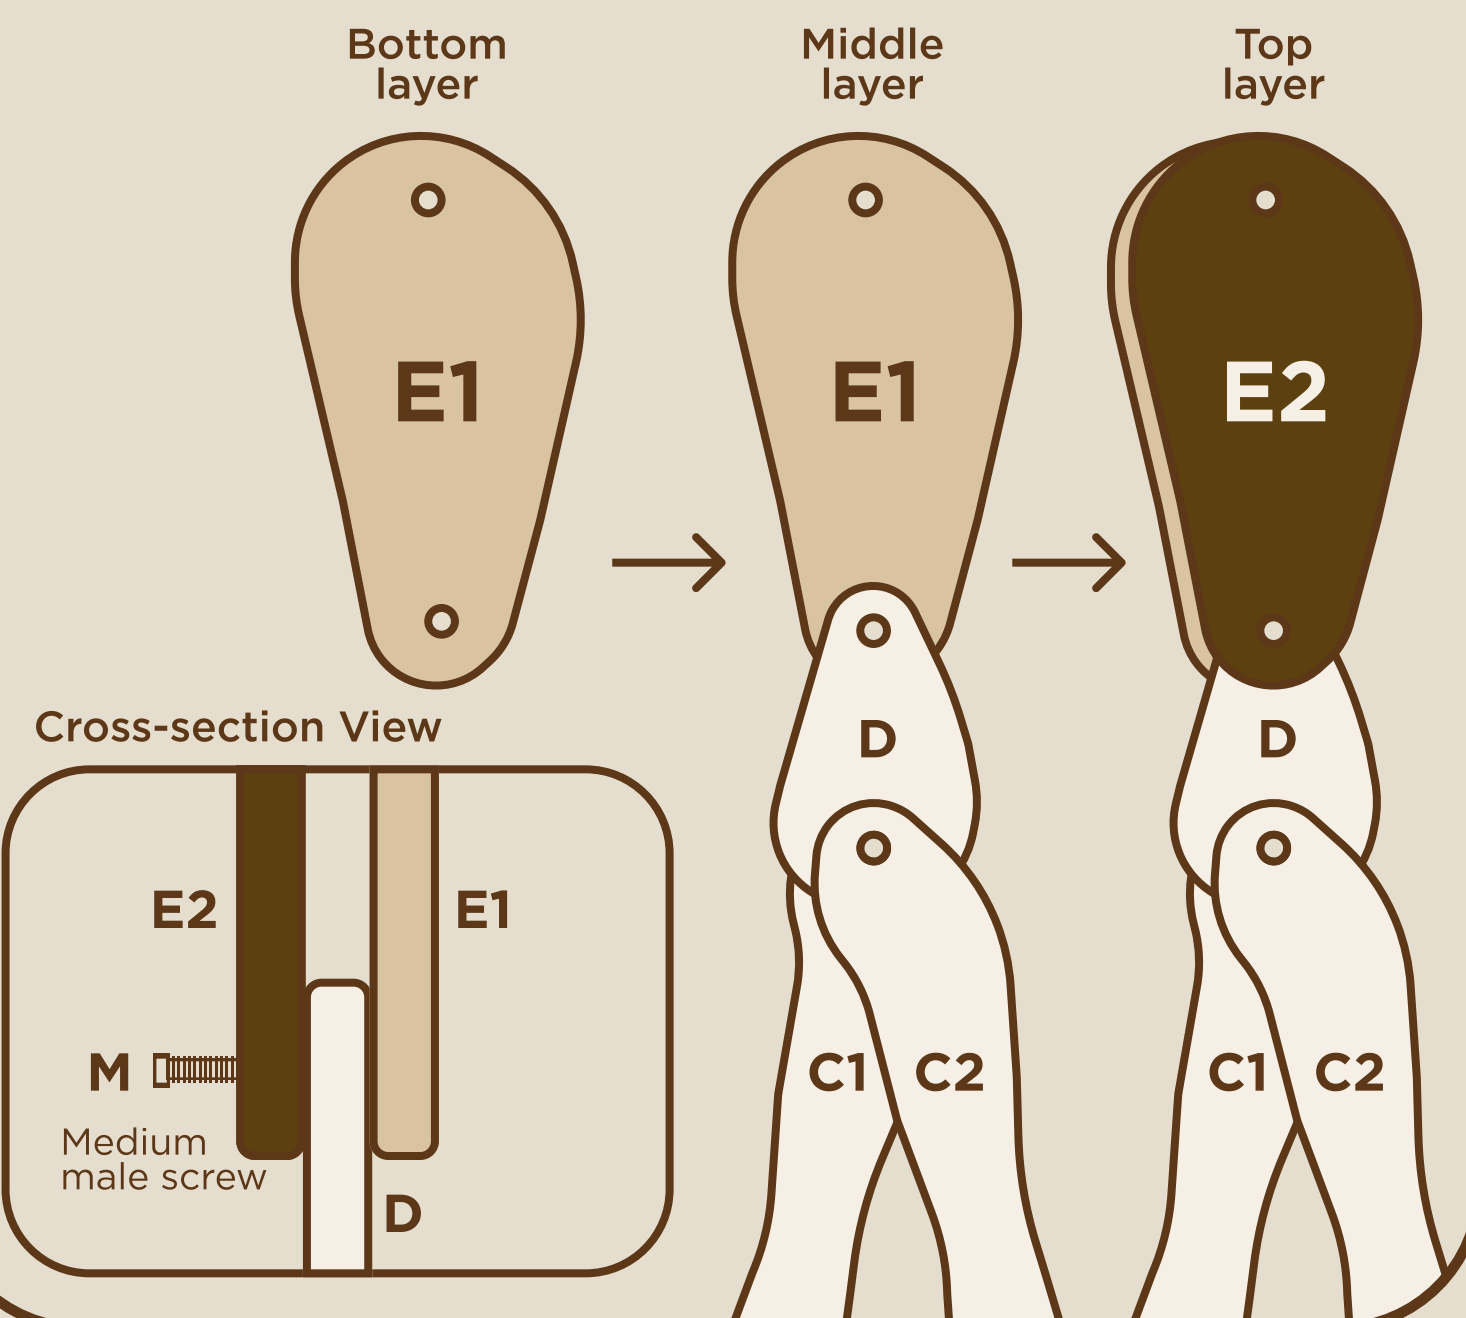

03

Join Upper Body to Hips

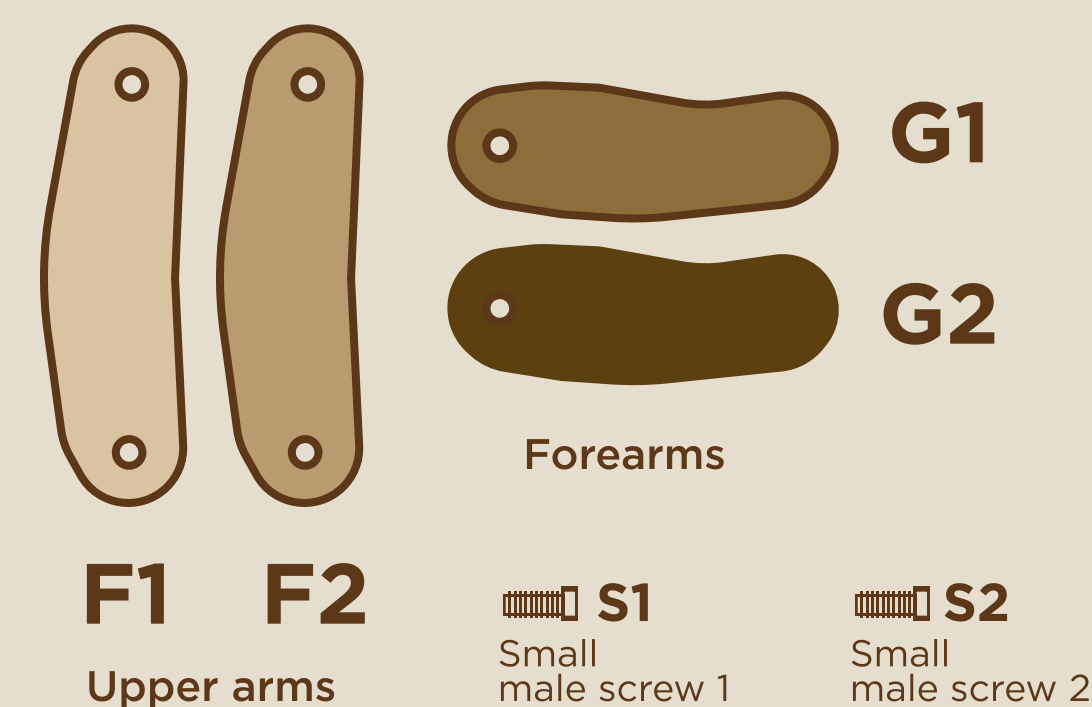

1. Align E1 and E2 (Chest & Torso) above part D (Hip). The bottom of E1 and E2 should sandwich the top part of D.
2. Using a medium male screw, secure E1, D and E2.

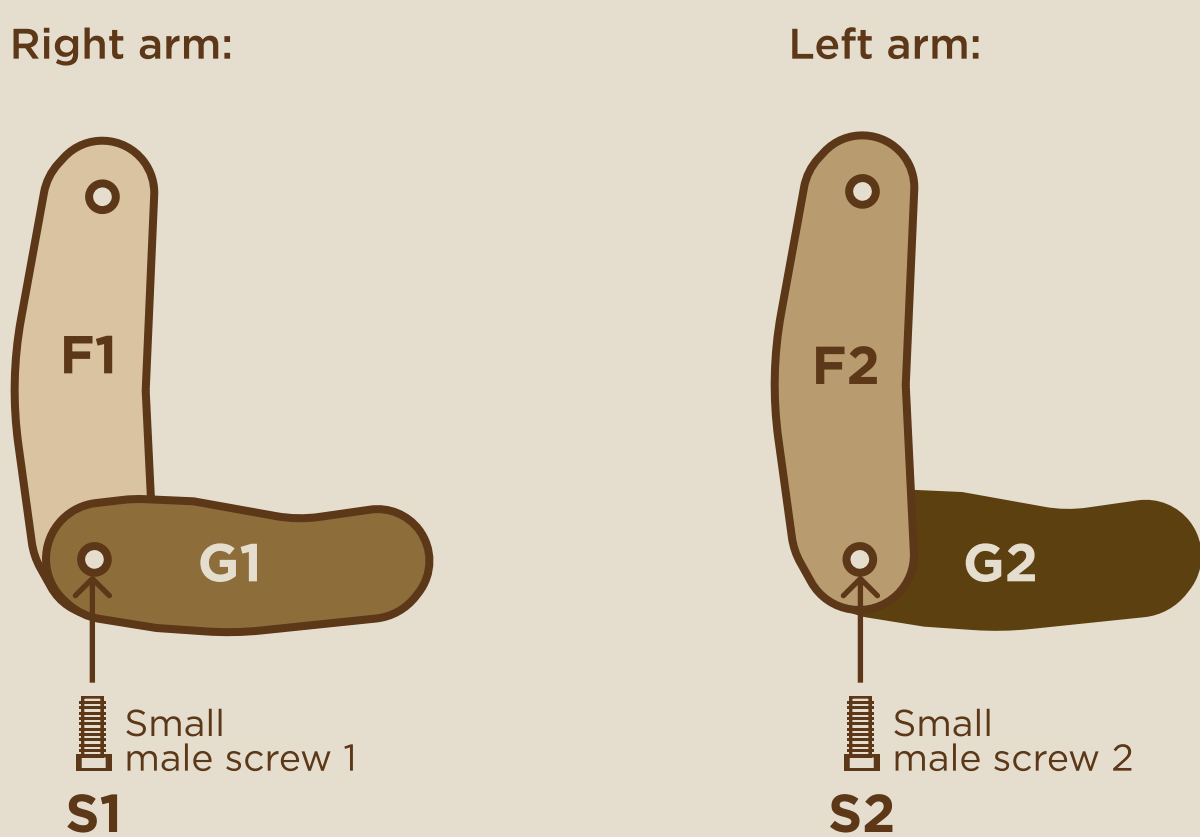

04

Assemble the Arms

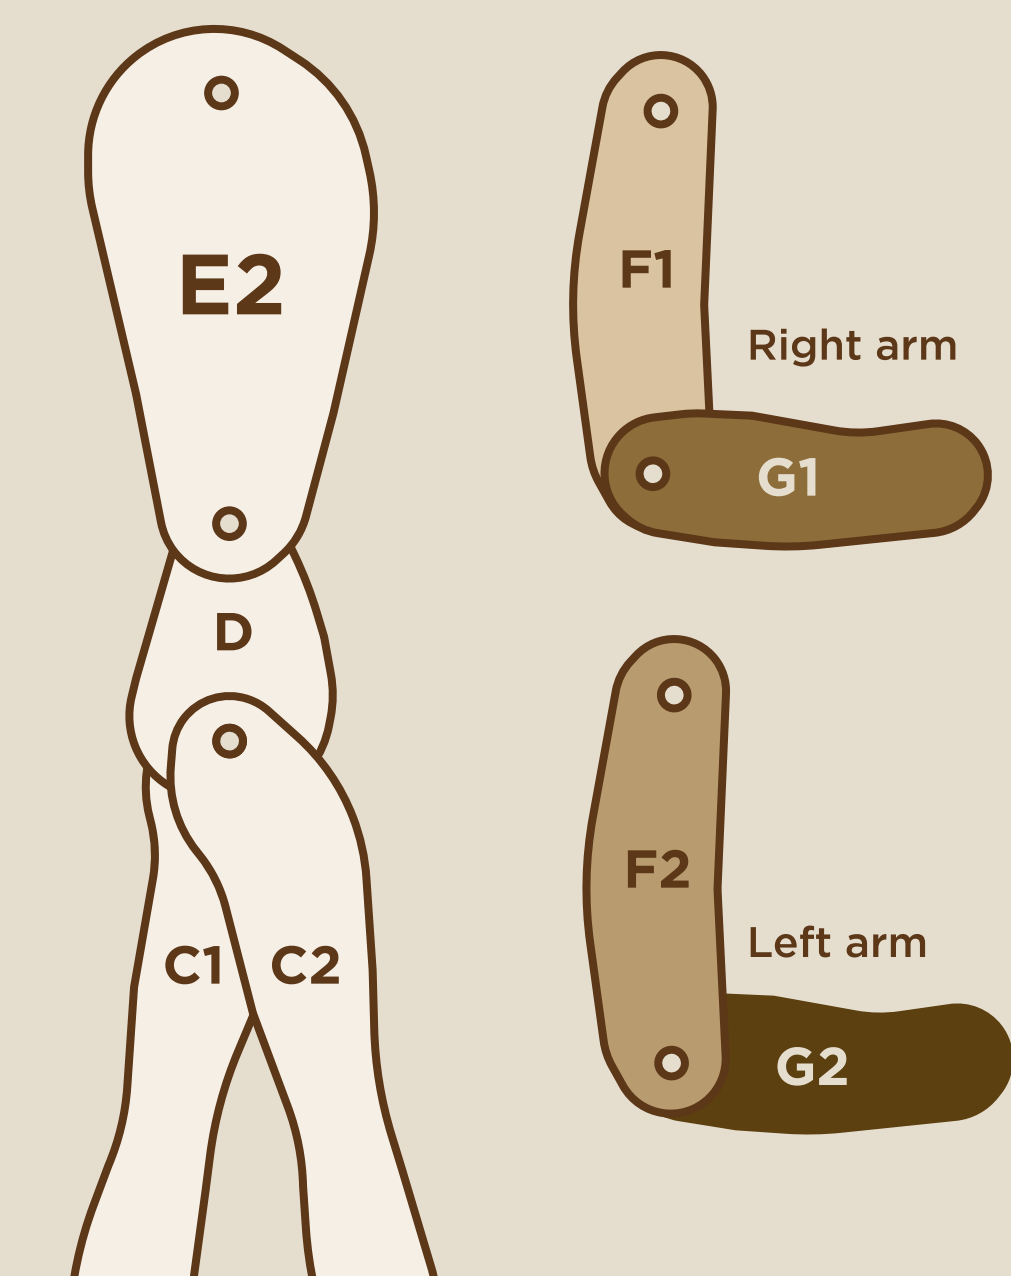

1. Attach part G1 (Forearm) to F1 (Upper Arm).
2. Using the small male screws, secure G1 and F1.
3. Repeat for G2 and F2. Take note of the difference in overlap when it comes to the right arm vs the left arm.

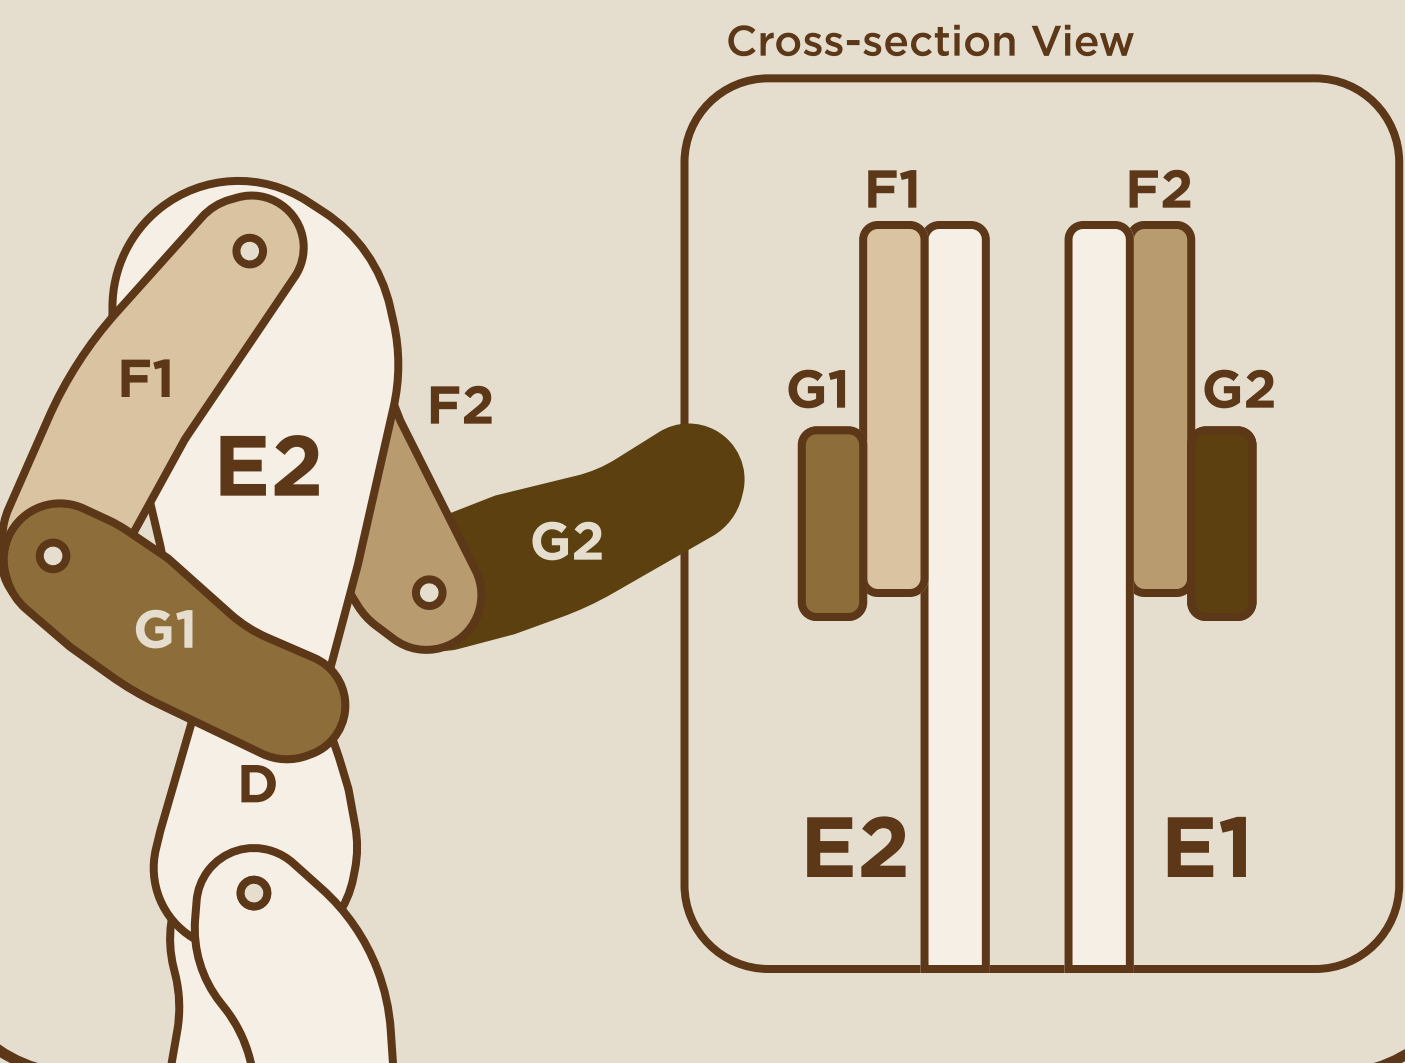

05

Attach Arms to the Torso

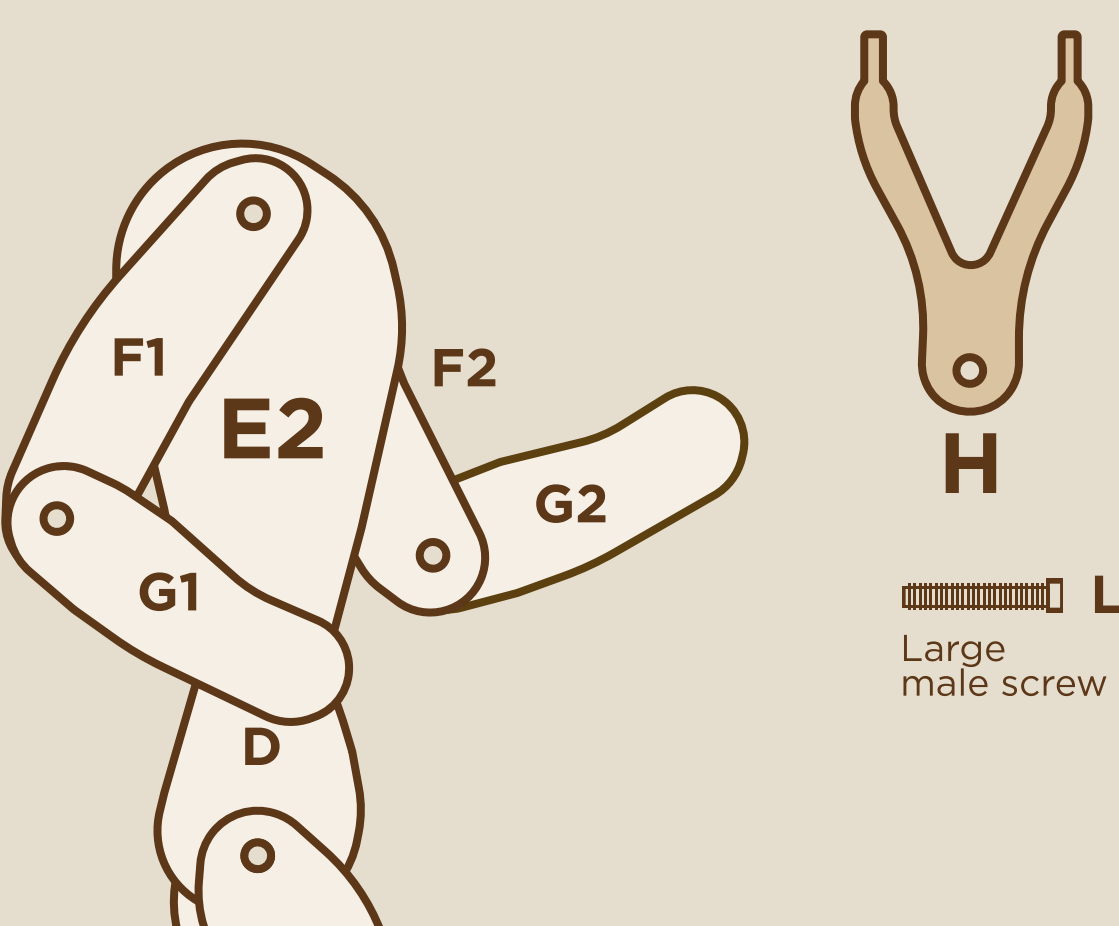

1. Attach each assembled arm (upper arm + forearm) to either side of the chest and torso assembly E1 + E2.
2. Do not secure them with the screw yet.

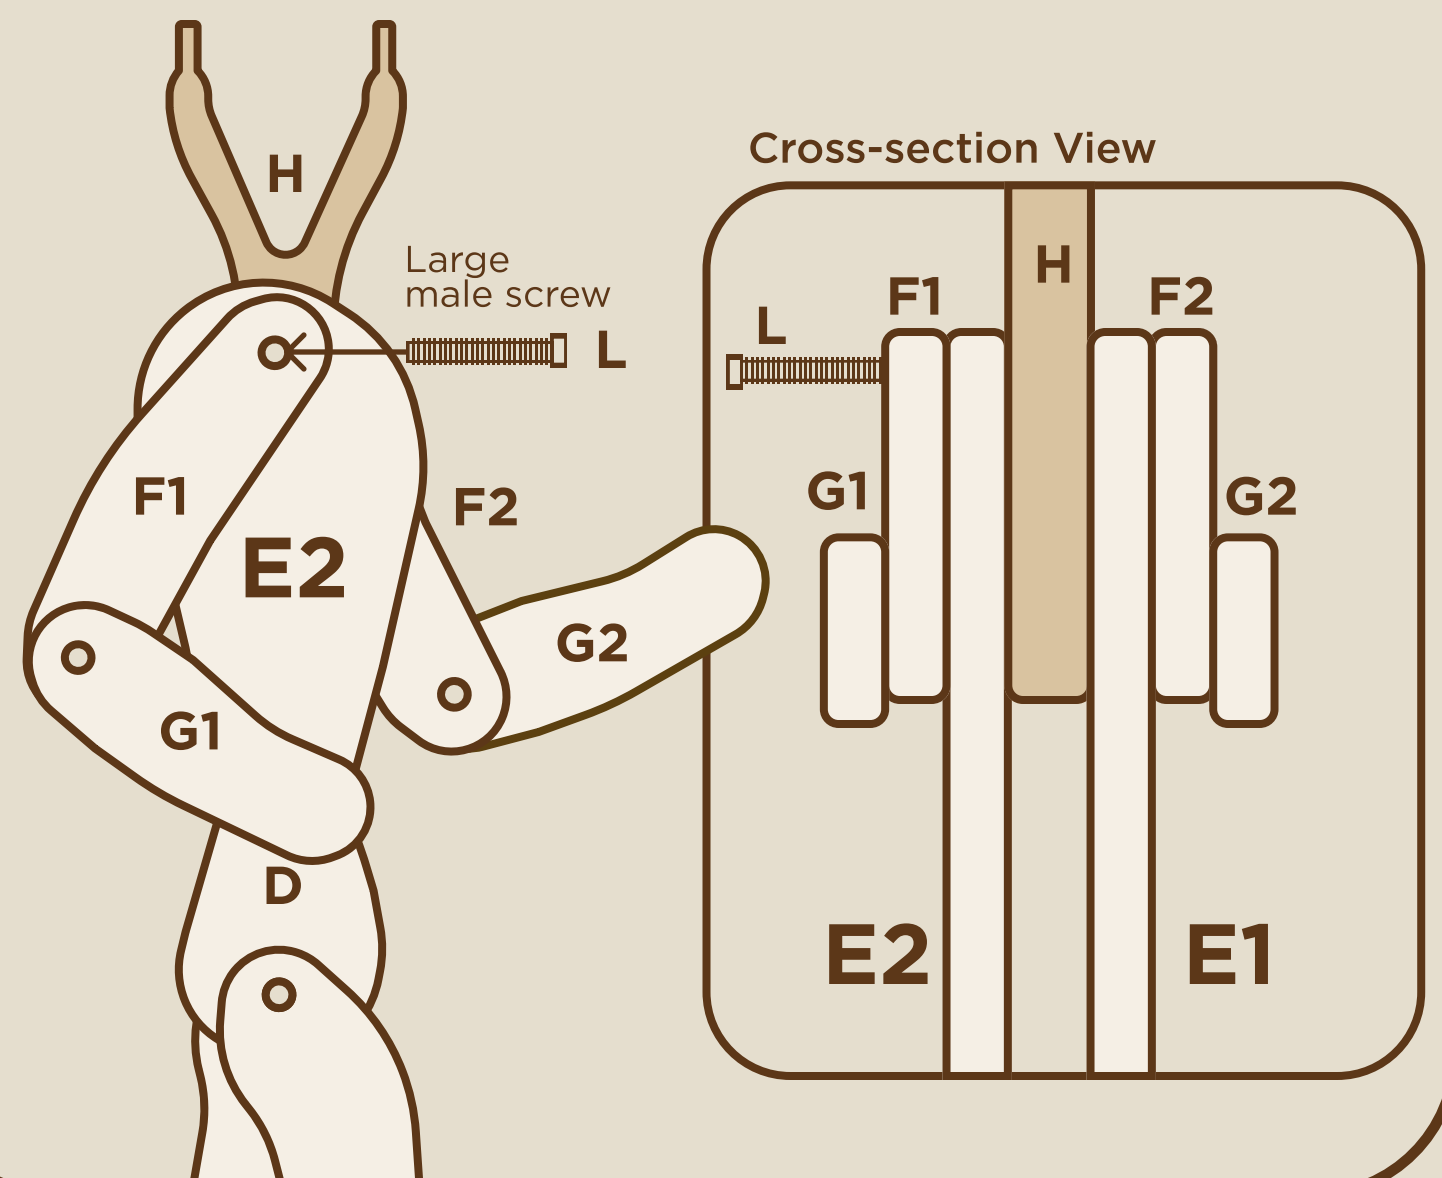

06

Insert and Secure the Neck

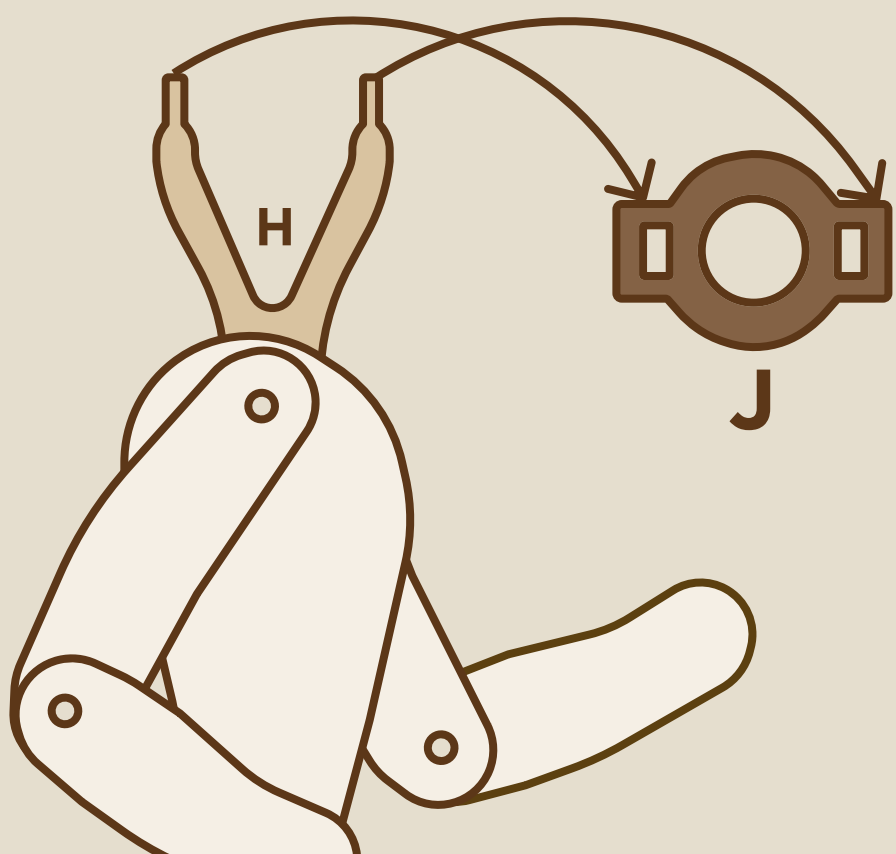

1. Insert the neck into the space at the top centre of the torso assembly.
2. Use the long male screw to secure the neck, chest, and arms in place, ensuring it is tightly fastened to provide stability to the structure.

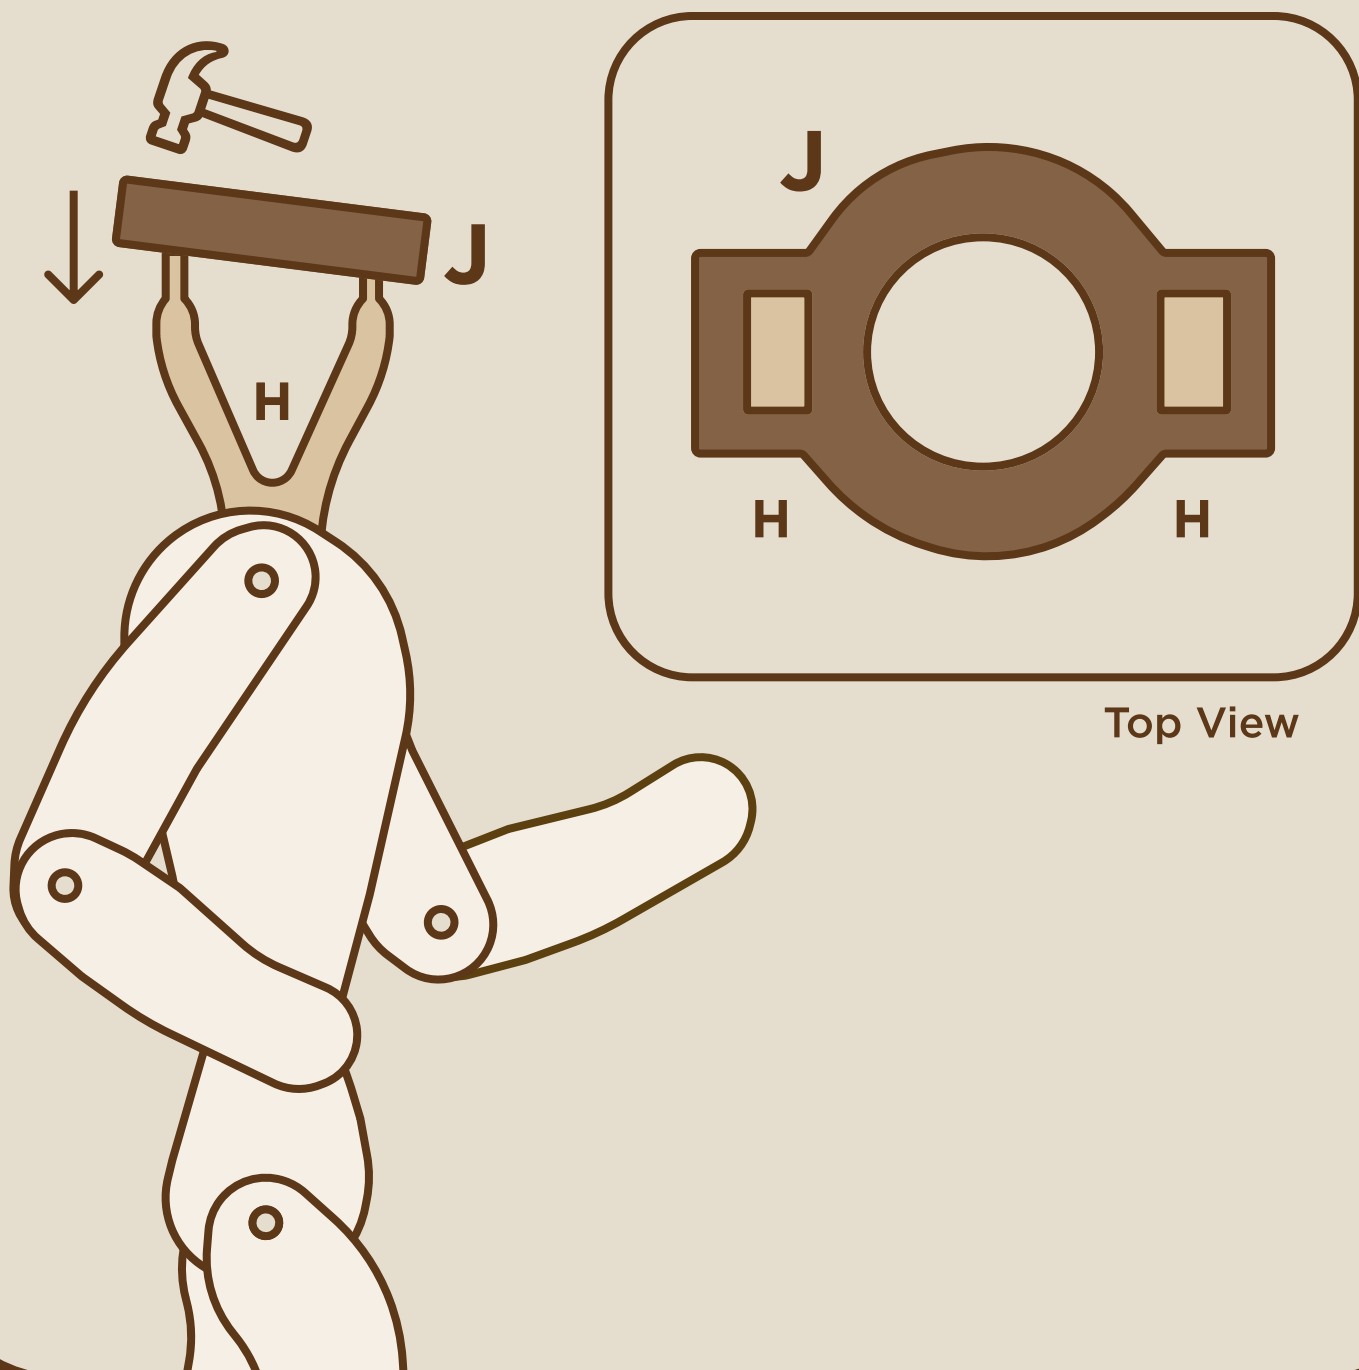

ASSEMBLAGE INSTRUCTIONS

07

Assemble Bulb Holder on Neck

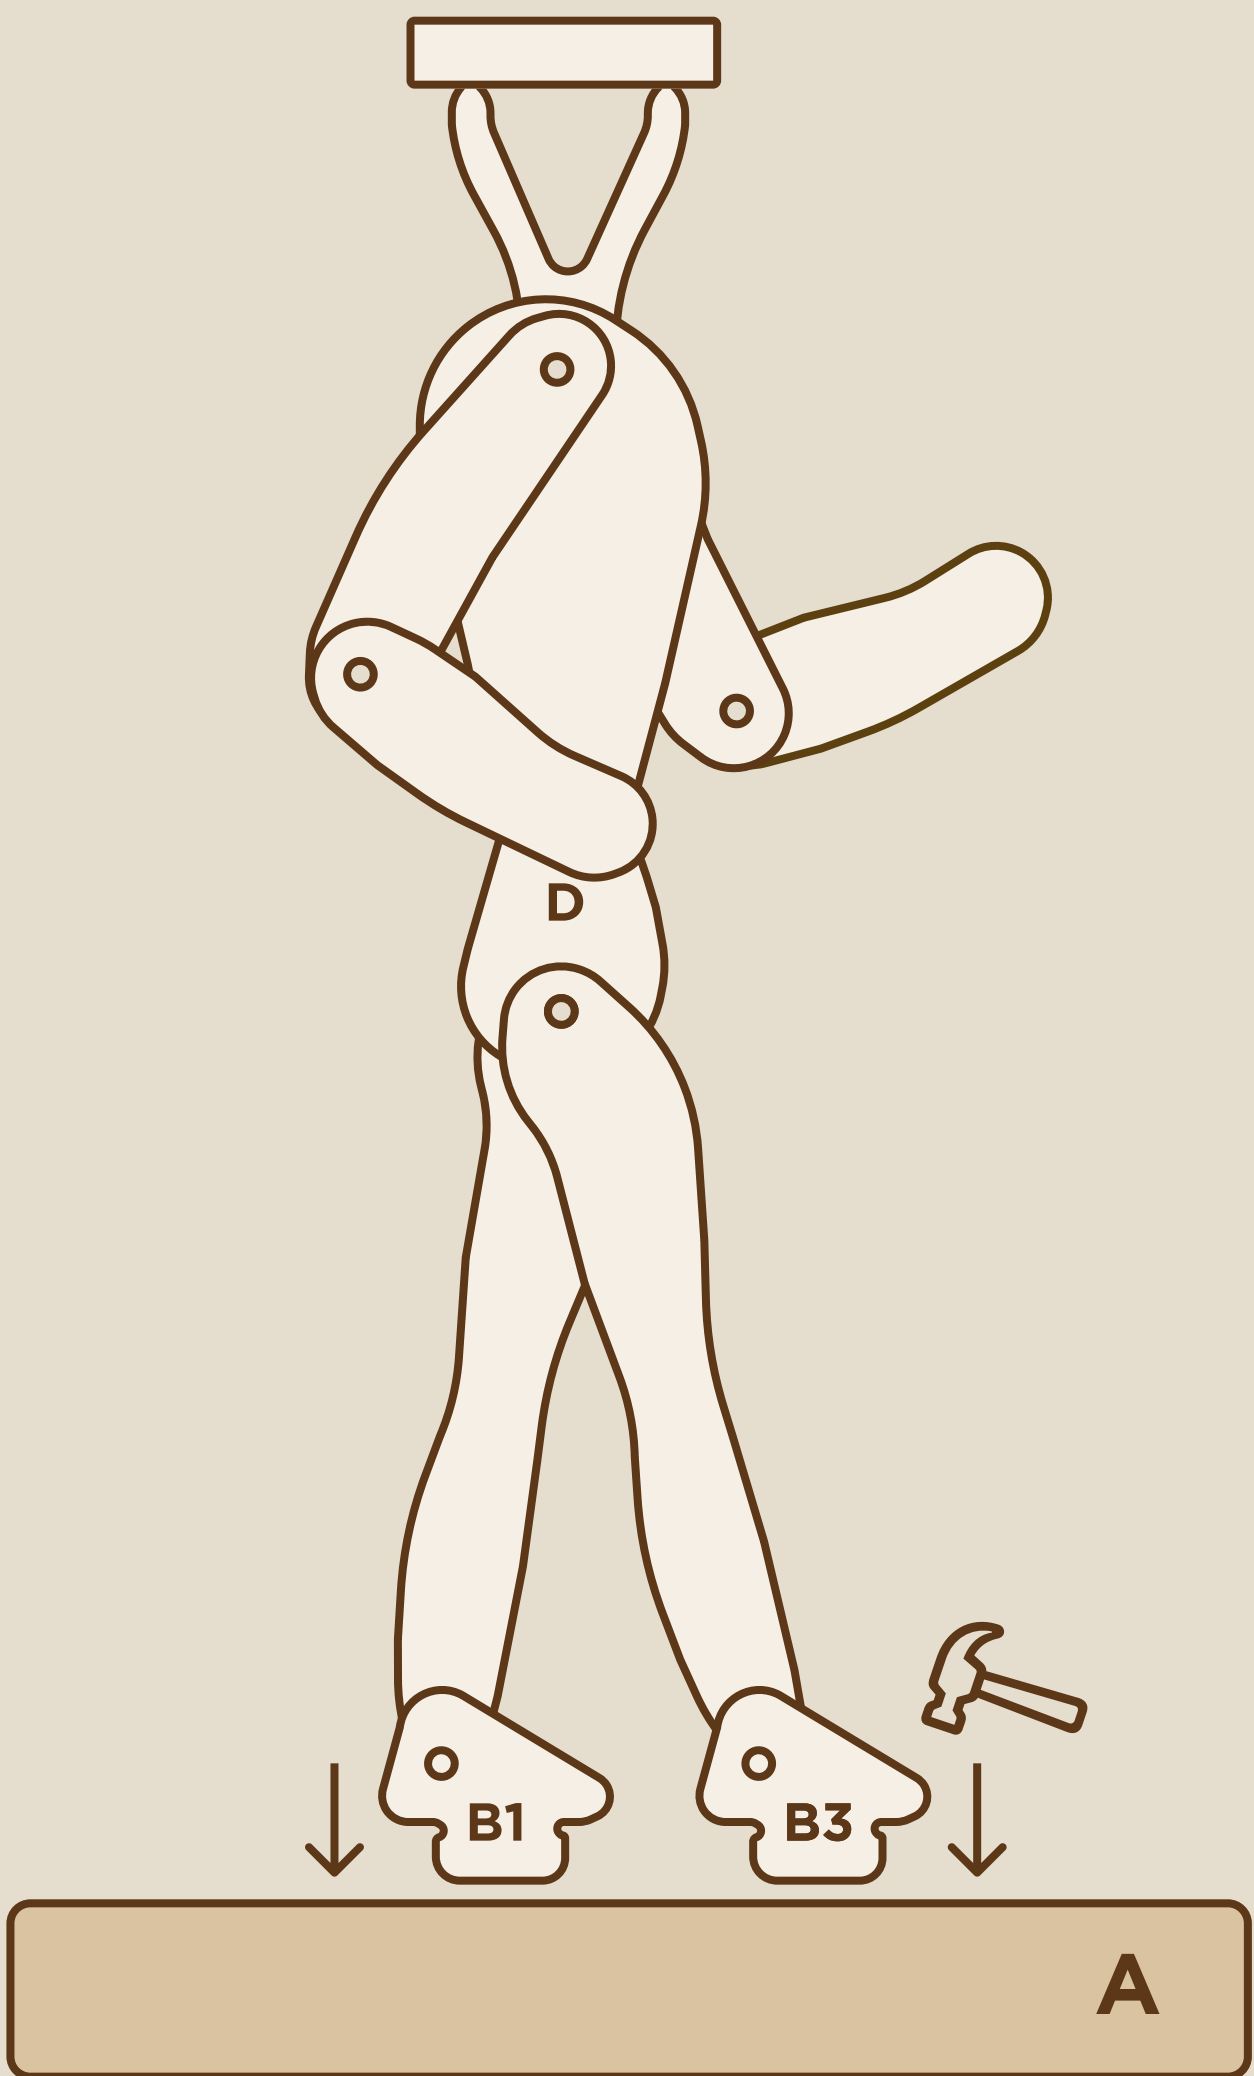

1. Insert the protruding ends of H (Neck) into the holes of J (Bulb Holder).
2. You can use additional objects like hammers to hammer the piece into place.

08

Assemble Human onto Base

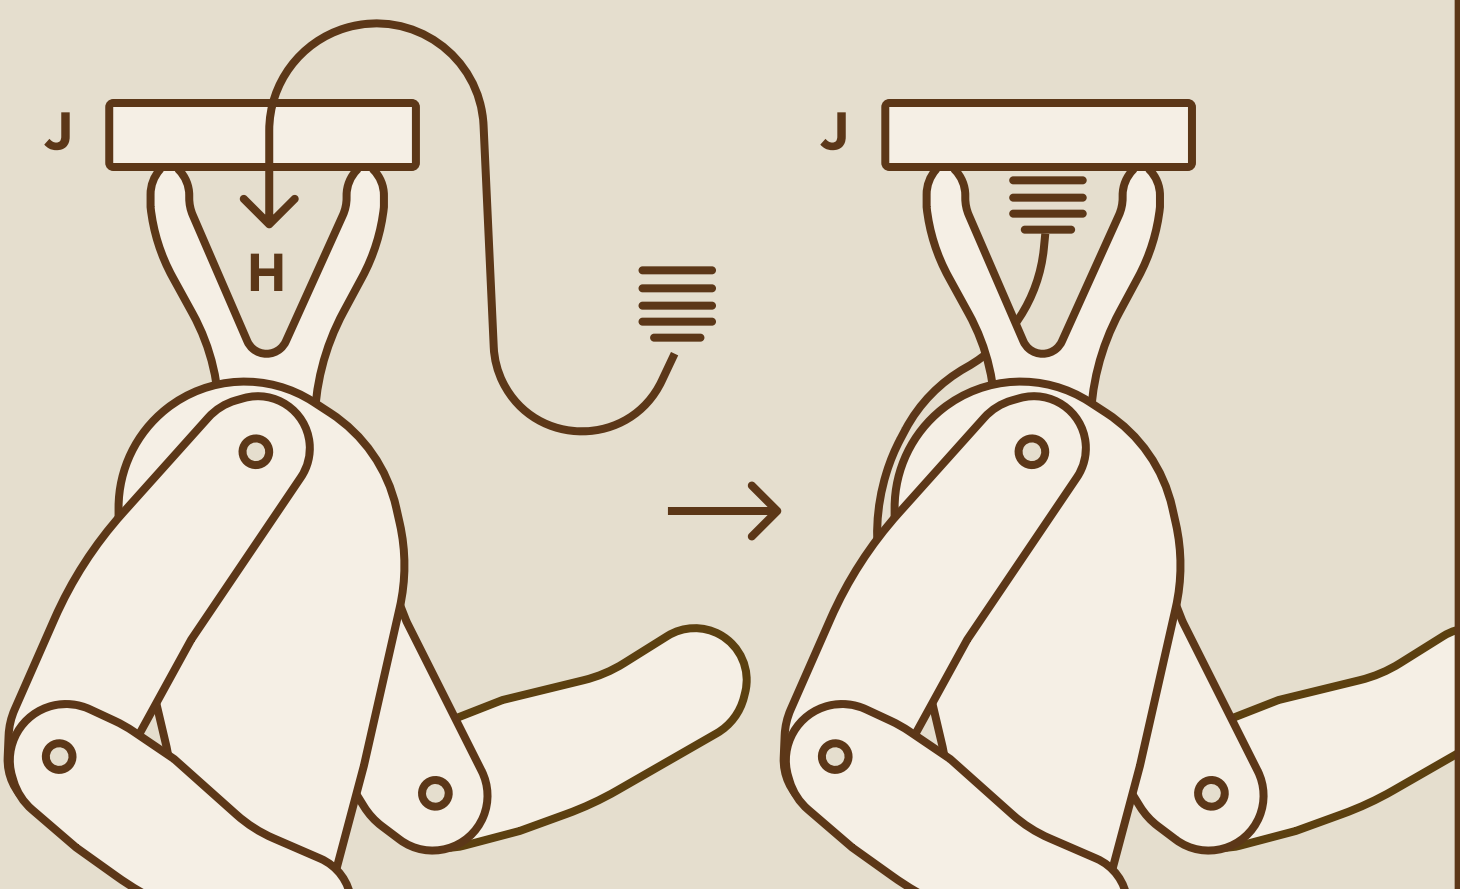

1. Insert the protruding ends of B1, B2, B3 and B4 (Feet) into the holes of A (Base).
2. You can use additional objects like hammers to hammer the pieces into place.

09

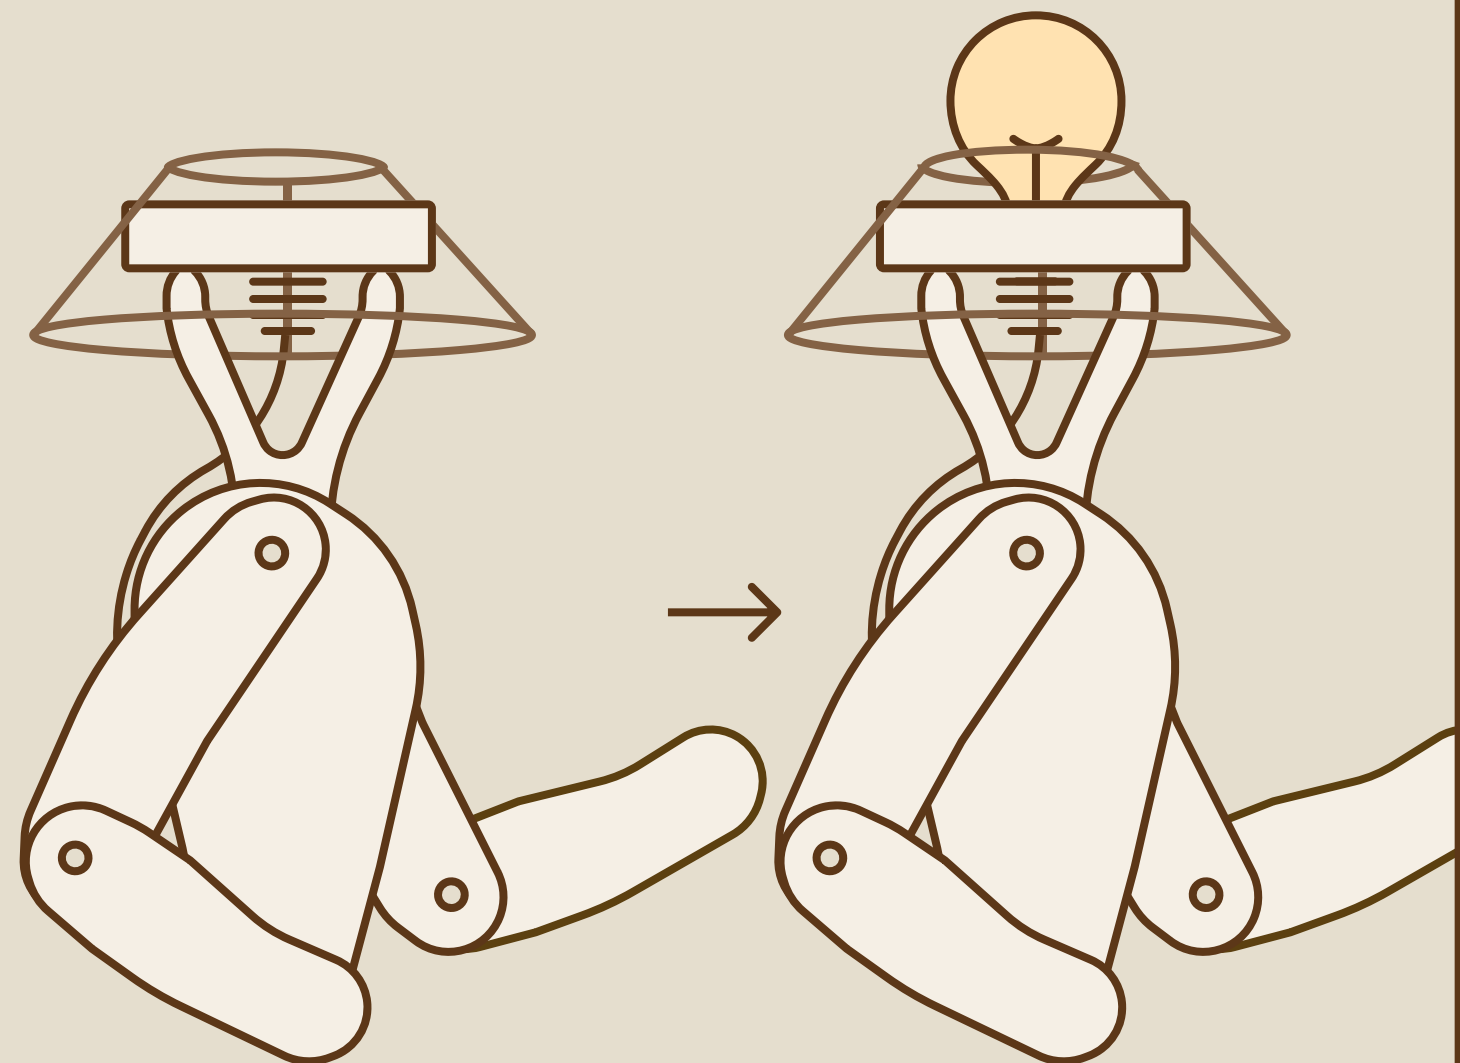

Assemble Base of Lamp Shade

1. Thread the bulb wire (without the bulb) through the hole on top of H.

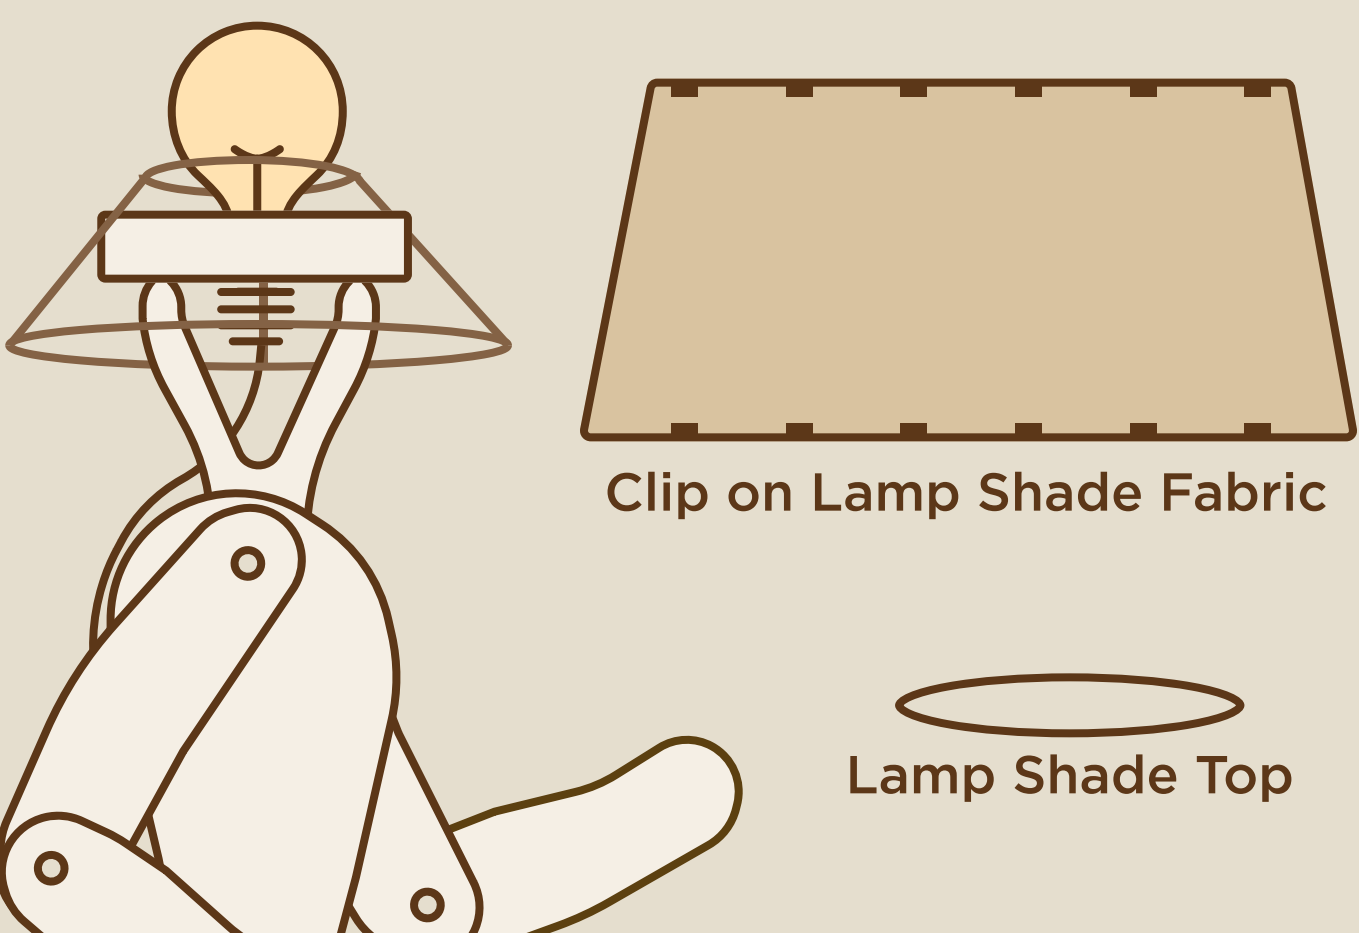

Assemble Bulb

1. Screw the Lamp Base onto the top of the bulb screw.
2. Screw the bulb on top of the Lamp Base

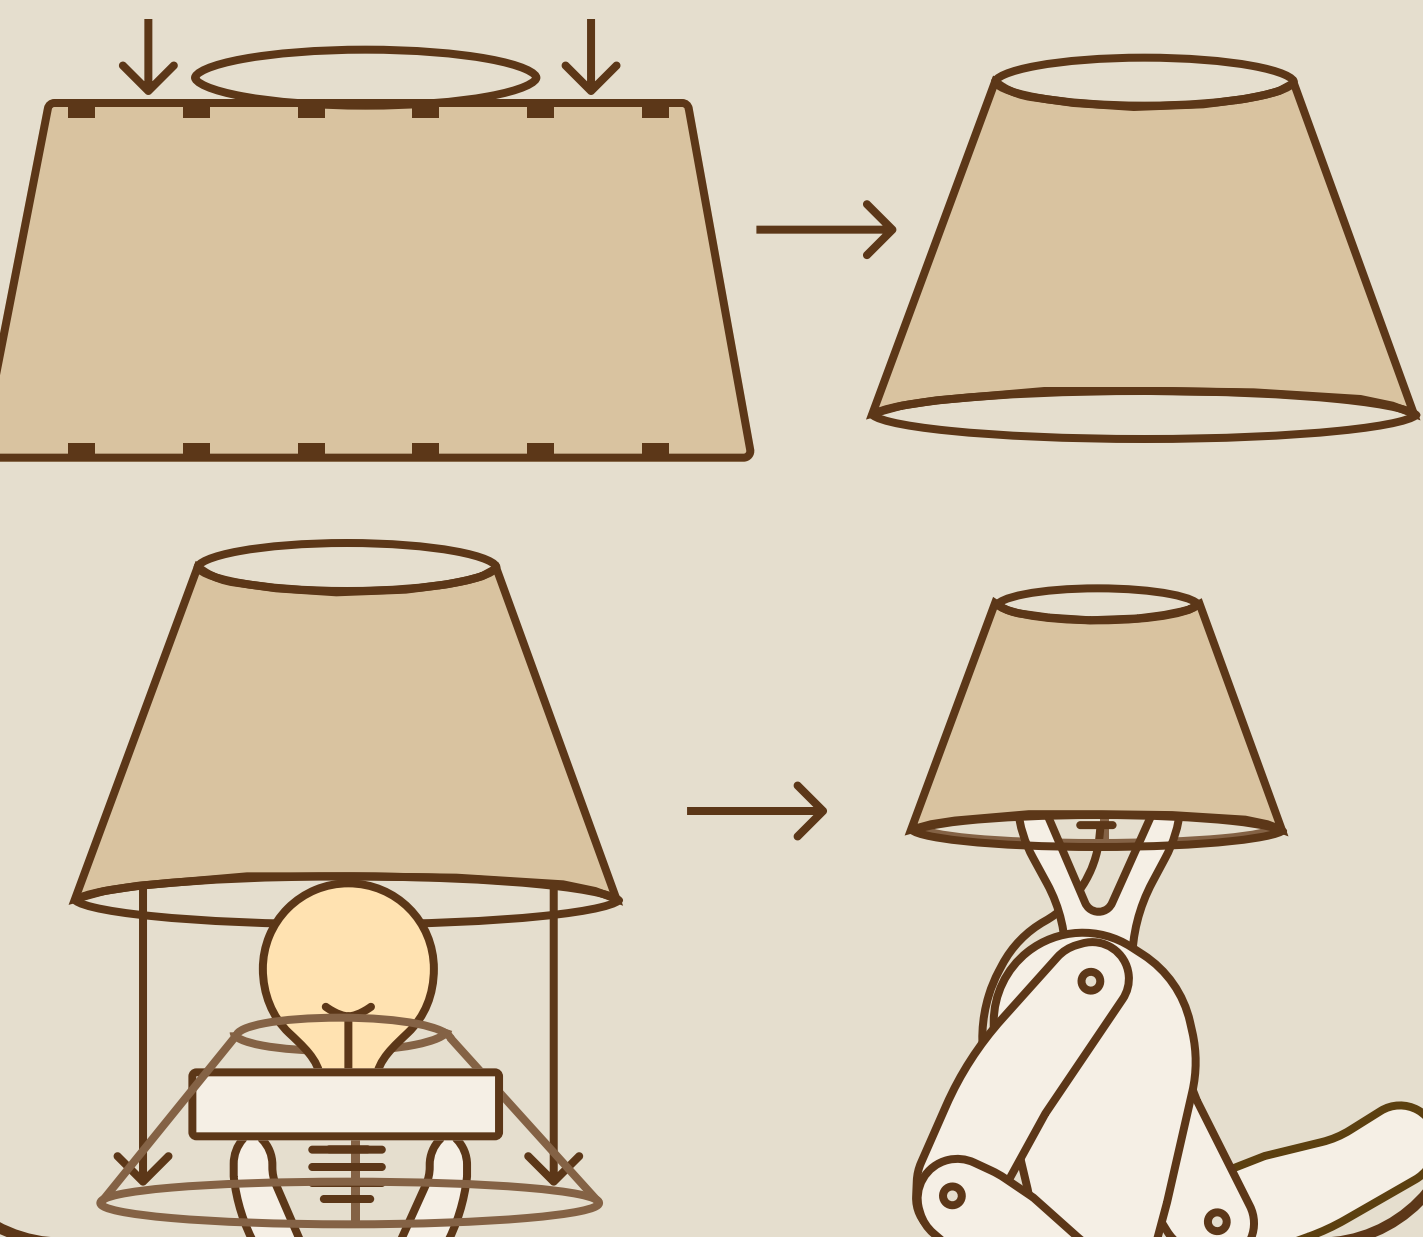

10

Assemble Lamp Shade

1. Our Lamp Shade Fabric comes with clip on clips on the top and bottom row for easy assemblage. Simply press the notches against the Lamp Shade top and bottom structures until you hear a click sound!
2. Clip the top of the Lamp Shade Fabric onto the Lamp Shape Top. This should form a cone shape.
3. Clip the bottom of the Lamp Shade Fabric onto the Lamp Shade Base structure.

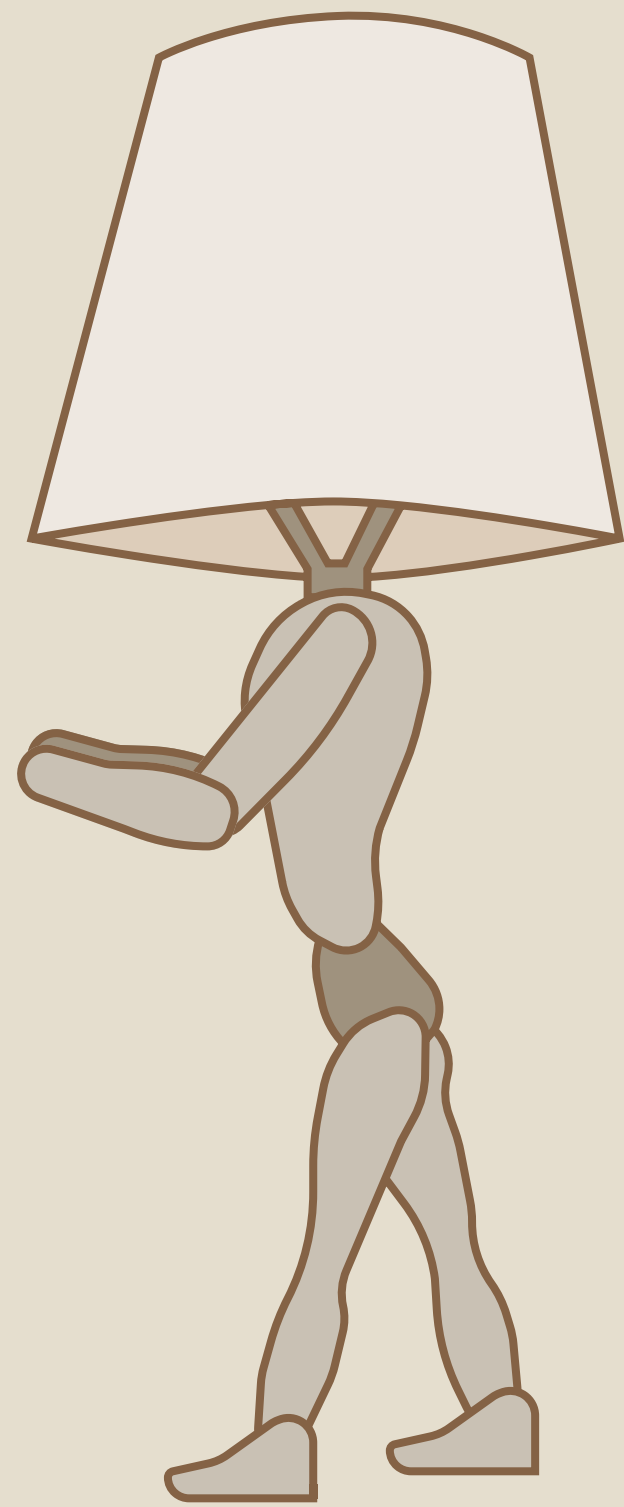

Need a Little Extra Help?

If you're having any trouble assembling your Luminous Paws kit, we've got you covered! Check out our *specialised courses* designed to guide you through the process step-by-step.
